PROFESSIONAL ACHIEVEMENTS

- Designed and developed both frontend and backend for various web applications, integrating multiple cloud services to build robust and scalable solutions.
- Implemented a real-time messaging system using Supabase, React.js, and TypeScript, enabling efficient communication between users.
- Successfully integrated payment gateways such as PayPal and Mercado Pago, automating the sales process and enhancing the customer experience.
- Significantly improved my ability to identify and solve problems in both frontend and backend development, better managing stress and optimizing my decision-making approach, allowing me to find faster and more efficient solutions.
